

**Product Declaration - DGNB Neubauversion Büro- und Verwaltungsgebäude (NBV12)**
**MANUFACTURER** Widopan Produkte GmbH

**PRODUCT NAME** WIDOCRYL-Detail (PMMA) (2% Katalysator)

**Product Rating**

- The product meets the requirements of quality level 1 to 4 and contributes to achieve 100 (of max. 100 achievable) checklist points according to criterion 'ENV1.2 Local Environmental Impact'.
- The product does not lead to toxic or corrosive fumes in case of fire. Hence this product contributes to achieve 20 (of max. 20 achievable) checklist points according to criterion 'SOC 1.7 Safety and Security'.

**Criterion ENV 1.2 Risks for the Local Environment - Ecological Quality**
**Quality Level 1** 10 Checklist Points 
**Quality Level 2** 50 Checklist Points 
**Quality Level 3** 75 Checklist Points 
**Quality Level 4** 100 Checklist Point 
**Criterion ENV 1.3.1 Sustainable Resources - Ecological Quality\***
**Quality Level 1** 10 Checklist Points 
**Quality Level 2** 50 Checklist Points 
**Quality Level 3** 100 Checklist Points 

\* This criterion is only applicable to wooden materials.

**Criterion SOC 1.7 Safety and Security - Prevention from risks of fumes**
**Indikator 2.3** 20 Checklist Points 
**Product Characteristics**

The material base of WIDOCRYL-Detail is urethane-modified methyl methacrylate resin (PMMA), which, for work on transitional features, has been made slightly thixotropic. A polyester fleece is in capsulated for reinforcement, which in turn determines elongation at rupture and breaking strength and ensures a uniform layer thickness. It is adjusted on site to the conditions of the structural shell, thus producing an homogeneous and crack-filling waterproofing which is permanently elastic. Detail penetrations and all kinds of roof fixtures, e.g. pipe openings, handrail supports and outlets, benefit from a reliable, long-term seal with WIDOCRYL-Detail waterproofing. WIDOCRYL-Detail will adhere to practically all bitumen, synthetic and rubber roofing sheets currently used for the waterproofing of roofs, and in most cases without any prior priming. The reinforcement covering must be a minimum of 5 cm lap. Covering for any different materials must be determined on a case by case basis, but should not be less than 10 cm wide.

**Credit requirements fulfilled - the action level is achieved**

**Credit is not applicable to this product**

**X% of the product comply with the credit requirement**

**Credit requirements are not fulfilled**
**About DGNB Products - [www.dgnb.de](http://www.dgnb.de)**

This declaration helps to assess products easily according the certification system DGNB® Neubauversion Büro- und Verwaltungsgebäude (NBV12). Products are not reviewed or certified by DGNB. DGNB credit requirements cover the performance of materials in aggregate, not the performance of individual products or brands. Therefore the project team or the manufacturer is responsible to declare the compliance with the project requirements to achieve DGNB points.

Above you find an explanation of the symbols. Detailed information are on the next pages.

<b>PRODUCT NAME</b>	WIDOCRYL-Detail (PMMA) (2% Katalysator)

**Product assessment for criteria ENV1.2 - Local environmental impact**

The product fulfills the requirements for Quality Level 1-4

Assessment: **Quality Level 4**

**Goals and Relevance**

Certain materials, construction products and preparations are a risk for soil, air, groundwater and surface water as well as for human's health, flora and fauna. In order to minimize risks for humans and the local environment, materials, (construction) products and preparations need to be reduced ,avoided or substituted, which due to their material properties or ingredients are a risk for surface and ground water, soil or air. Especially those materials, (construction) products and preparations must be reduced ,avoided or replaced, which affect human health, flora and fauna or harm within a short-, medium / or long-term period . This affects the entire life cycle - from production, processing at site, use of (building) inventory and disposal (dismantling, recycling, landfilling). These local risks are assessed material and product related. Hence eco-and human toxicological impact categories of LCA can not be applied due to lack of evaluation and measurement procedures.

**Product Assessment**

Relevant Products		Requirements of Quality Levels		Assessment of Product	Evaluation
2	Coatings on mainly mineral substrates such as Concrete, masonry, mortar and trowel (also dispersion filler), plasters as well as wallpapers, fiber, plasterboard etc .. Not considered are soil surfaces with special stability requirements (such as OS systems) and transport routes such as underground garages, driveways, etc.	Quality Level 1	Water-soluble products according to current Decopaint Guideline.	The VOC content is less than 30 g / l. The product is solvent-free and plasticizer-free according to VdL-RL01.	<b>Quality Level 4</b>
	Quality Level 2	VOC-Content < 30 g/l			
	Quality Level 3	free of solvents and flexibiliser according to VdL RL01 or RAL-UZ 102 (SVOC)			
	Quality Level 4	free of solvents and flexibiliser according to VdL RL01 or RAL-UZ 102 (SVOC)			
Relevant Products		Requirements of Quality Levels		Assessment of Product	Evaluation
28	Plastics for coating of surfaces (floor and wall) and components on the facade	Quality Level 1	Content of lead and tin <0.1%	The content of lead and tin in the used plastics is < 0.1%	<b>Quality Level 4</b>
	Quality Level 2	Content of lead and tin <0.1%			
	Quality Level 3	Content of lead and tin <0.1%			
	Quality Level 4	Content of lead and tin <0.1%			

**Other remarks on classification**

<b>MANUFACTURER</b>	Widopan Produkte GmbH
<b>PRODUCT NAME</b>	WIDOCRYL-Detail (PMMA) (2% Katalysator)

**Product assessment for criteria SOC1.7 - Safety and Security**

The product fulfills the requirements for prevention of fumes.

Assessment: **20 of 20**  
**Checklist Points**

**Goals and Relevance**

A high sense of security contributes fundamentally to the comfort of human being. The goal is to avoid dangerous situations as much as possible and to reduce the impact of a non-preventable damage, as far as possible. The criterion safety and security assesses also the performance of products in case of fire.

**Product Assessment**

	Relevant Requirements	Requirements of Quality Levels	Assesment of Product	Evaluation
2.3	Prevention from risks of fumes	20 Checklist Points The product does not lead to toxic or corrosive fumes in case of fire	The product does not lead to toxic or corrosive fumes in case of fire.	<b>20 Checklist Points</b>
