

Product Declaration - DGNB Neubauversion Büro- und Verwaltungsgebäude (NBV12)
MANUFACTURER Widopan Produkte GmbH

PRODUCT NAME WIDOPUR-LF (2 K-PUR)

Product Rating

- The product meets the requirements of quality level 1 to 4 and contributes to achieve 100 (of max. 100 achievable) checklist points according to criterion 'ENV1.2 Local Environmental Impact'.
- The product does not lead to toxic or corrosive fumes in case of fire. Hence this product contributes to achieve 20 (of max. 20 achievable) checklist points according to criterion 'SOC 1.7 Safety and Security'.

Criterion ENV 1.2 Risks for the Local Environment - Ecological Quality
Quality Level 1 10 Checklist Points 
Quality Level 2 50 Checklist Points 
Quality Level 3 75 Checklist Points 
Quality Level 4 100 Checklist Point 
Criterion ENV 1.3.1 Sustainable Resources - Ecological Quality*
Quality Level 1 10 Checklist Points 
Quality Level 2 50 Checklist Points 
Quality Level 3 100 Checklist Points 

* This criterion is only applicable to wooden materials.

Criterion SOC 1.7 Safety and Security - Prevention from risks of fumes
Indikator 2.3 20 Checklist Points 
Product Characteristics

WIDOPUR-LF 2K releases no solvent during processing and meets all sealing requirements. With the reinforcement of polyester fleece, a homogenous waterproofing, which also bridges over cracks, is created. All upstands and details are reliably and permanently sealed. After approximately 2 hours at 20 °C the material is cured, and may be walked on after 12 hours. The material is completely rainproof after approx. 45 minutes. Combined with the reinforcement of polyester mesh and fabric, the result is a highly flexible and durable elastic seal which resists all the effects of precipitation and airborne loads, while at the same time providing adequate fixing strength. WIDOPUR-LF 2K adheres to the majority of commonly used plastic and bitumen roofing membranes without the need for priming. However, priming may be required at transitions to other substrates. – enquire with Widopan Technical department prior to installation.

About DGNB Products - www.dgnb.de

This declaration helps to assess products easily according the certification system DGNB® Neubauversion Büro- und Verwaltungsgebäude (NBV12). Products are not reviewed or certified by DGNB. DGNB credit requirements cover the performance of materials in aggregate, not the performance of individual products or brands. Therefore the project team or the manufacturer is responsible to declare the compliance with the project requirements to achieve DGNB points.

Above you find an explanation of the symbols. Detailed information are on the next pages.

Product assessment for criteria ENV1.2 - Local environmental impact

The product fulfills the requirements for Quality Level 1-4

 Assessment: **Quality Level 4**
Goals and Relevance

Certain materials, construction products and preparations are a risk for soil, air, groundwater and surface water as well as for human's health, flora and fauna. In order to minimize risks for humans and the local environment, materials, (construction) products and preparations need to be reduced ,avoided or substituted, which due to their material properties or ingredients are a risk for surface and ground water, soil or air. Especially those materials, (construction) products and preparations must be reduced ,avoided or replaced, which affect human health, flora and fauna or harm within a short-, medium / or long-term period . This affects the entire life cycle - from production, processing at site, use of (building) inventory and disposal (dismantling, recycling, landfilling). These local risks are assessed material and product related. Hence eco-and human toxicological impact categories of LCA can not be applied due to lack of evaluation and measurement procedures.

Product Assessment

	Relevant Products	Requirements of Quality Levels	Assessment of Product	Evaluation
2	Coatings on mainly mineral substrates such as Concrete, masonry, mortar and trowel (also dispersion filler), plasters as well as wallpapers, fiber, plasterboard etc .. Not considered are soil surfaces with special stability requirements (such as OS systems) and transport routes such as underground garages, driveways, etc.	Quality Level 1 Water-soluble products according to current Decopaint Guideline. Quality Level 2 VOC-Content < 30 g/l Quality Level 3 free of solvents and flexibiliser according to VdL RL01 or RAL-UZ 102 (SVOC) Quality Level 4 free of solvents and flexibiliser according to VdL RL01 or RAL-UZ 102 (SVOC)	The VOC content is less than 30 g / l. The product is solvent-free and plasticizer-free according to VdL-RL01.	Quality Level 4
15	Reactive PU products for coating mineral surfaces of floor, ceiling and wall - also in system structures Subject: Sealers, 2K PU coatings, polyurethane floor coatings - except OS systems for parking, etc.	Quality Level 1 GISCODE PU 10/20* Quality Level 2 GISCODE PU 10/20* Quality Level 3 GISCODE PU 10* Quality Level 4 GISCODE PU 10*	WIDOPUR-LF (2K-PUR) belongs to the group GISCODE PU40*.

PRODUCT NAME WIDOPUR-LF (2 K-PUR)

Relevant Products		Requirements of Quality Levels		Assessment of Product	Evaluation
28	Plastics for coating of surfaces (floor and wall) and components on the facade	Quality Level 1	Content of lead and tin <0.1%	The content of lead and tin in the used plastics is < 0.1%	Quality Level 4
		Quality Level 2	Content of lead and tin <0.1%		
		Quality Level 3	Content of lead and tin <0.1%		
		Quality Level 4	Content of lead and tin <0.1%		

Other remarks on classification

WIDOPUR-LF (2 K-PUR): GISCODE PU40*

* Due to stricter labeling of all isocyanates as sensitizing substances have products that were previously classified in the GISCODES PU10 or PU20, be reclassified in the GISCODES PU40 and PU50. Up to an adjustment of GISCODES materials are accepted with GISCODES PU40 (instead PU10) PU50 and (instead PU20).

Product assessment for criteria SOC1.7 - Safety and Security

The product fulfills the requirements for prevention of fumes.

 Assessment: **20 of 20**
Checklist Points
Goals and Relevance

A high sense of security contributes fundamentally to the comfort of human being. The goal is to avoid dangerous situations as much as possible and to reduce the impact of a non-preventable damage, as far as possible. The criterion safety and security assesses also the performance of products in case of fire.

Product Assessment

	Relevant Requirements	Requirements of Quality Levels	Assesment of Product	Evaluation
2.3	Prevention from risks of fumes	20 Checklist Points The product does not lead to toxic or corrosive fumes in case of fire	The product does not lead to toxic or corrosive fumes in case of fire.	20 Checklist Points
